# GRI 申請流程 – 注意事項

## What you need to apply:

You must:

1. Review all eligibility criteria in the blue box that appears after selecting your home country: in addition to the general GRI requirements, there may be specific eligibility criteria for each country and international partner organization.
2. Confirm that your passport issued by your home country is valid at least January 2027. (You are welcome to apply if you don't have a valid passport. However, you will need to provide valid passport information if your application is approved.)
3. Obtain a reference letter from a professor. Please refer to the [reference-letter instructions](#). All reference letters must follow the instructions provided.
4. Update your CV: You can submit your own CV or use the [CV template](#) provided by Mitacs.
5. Obtain your official academic transcripts in either English or French. If your academic institution cannot provide transcripts in either language, you are responsible for getting them translated and notarized. **Transcripts must be included in your application.**
6. Apply to a minimum of three and a maximum of ten projects and ensure selections are from at least three different Canadian provinces.
7. English or French language-proficiency tests may be required for some countries. Please check your country's details for more information.

## A Mixed Method Analysis of Burnout and Physical Health among Skilled Trade Workers in Ontario, Canada

The existing literature lacks sufficient data on the relationship between labor mobility and mental health. This project aims to fill this research gap by collaborating with employers and rural communities in Southwestern Ontario. The objective is to develop a scalable model for labor mobility that connects employers facing ongoing labor shortages with individuals from regions in Ontario with high unemployment rates. The research team at the University of Toronto proposes a mixed-methods sequential explanatory study design, starting with a cross-sectional analysis and followed by focus groups. The primary objectives of the project include identifying and describing strategies, tools, and instruments to address stigma, fear, anxiety, and depression among Ontario workers. The project also aims to investigate the adverse health outcomes associated with mobile employment and long-distance labor commuting. By examining the drivers and predictors of mental health conditions that lead to work absences or disruptions within the context of mobile employment and long-distance labor commuting, this project seeks to shed light on the impact of these factors on individuals' well-being. Additionally, the long-term vision is to develop solutions that support the training and education of future Ontario workers, preparing them for mobile employment and long-distance labor commuting scenarios.

## A Mixed Method Analysis of Burnout and Physical Health among Skilled Trade Workers in Ontario, Canada

**Faculty supervisor** Behdin Nowrouzi-Kia

**Specialization** Behdin Nowrouzi-Kia, an experienced occupational therapist, has dedicated the past 12 years to working with injured workers. His professional focus revolves around occupational health and safety, exploring the social determinants of mental health, addressing traumatic brain injuries, and delving into the complexities of return to work challenges. Behdin's research pursuits are strongly influenced by his clinical experience as an occupational therapist, particularly in private practice, where he has been actively involved in facilitating return to work and preventing work-related disabilities.

# GRI 申請流程-Application- Academic Reference

## Academic Reference

You are required to provide one reference letter from a professor. You have two options to collect reference letters. You may use either option or a combination of both.

Option 1: Invite your referring professor(s) to submit a confidential reference letter to Mitacs.

In the following fields, please enter the first name, last name, and a valid email address for at least one and at most two academic references. Only one reference per application to be considered complete.

- Please choose your referencing professor carefully. Once you have invited them, follow up with them to ensure that they have received the email and responded before the application deadline.
- IMPORTANT: If your reference does not receive the email inviting them to upload a reference letter within 72 hours, please use the "resend" button to resend the invitation. If your reference still does not receive the invitation email, please ask them to check their junk mail and spam filter settings for emails from [noreply\\_globalink@mitacs.ca](mailto:noreply_globalink@mitacs.ca).
- If you need to reset a reference due to an error and/or to change an email address, please use the "reset" button. Please note that this will erase all information for that reference, will delete any uploaded document, will notify them, and will disable the upload link they were previously sent.
- You are welcome to reset and resend the reference as many times as needed. If this option does not work for your professor, please use Option 2 in the next section.

You will be able to see the status of the reference invitation (if a letter has been submitted or not). However, please note you will not be able to view the letter content.

## Letter of Recommendation Guidelines

Each recommendation letter must adhere to the following requirements:

### 1. Letterhead and Signature:

- o The letter must be written on official university letterhead.
- o It must be signed by the supervisor providing the recommendation.

### 2. Contact Information:

- o The letter should include the supervisor's full contact details:
  - **Title** (e.g., Professor, Dr.)
  - **Department Affiliation**
  - **University Name**
  - **Email Address**
  - **Phone Number**

### 3. Language:

- o The letter must be written in either English or French.

### Content of the Recommendation Letter:

Former or current supervisors writing a letter of recommendation should include the following information:

#### 1. Supervision Period:

- o Specify the duration and time frame during which you supervised the candidate.
- o Mention the number of other students you have supervised at the same academic or professional level during this period.

#### 2. Productivity and Performance:

- o Assess and describe the candidate's productivity compared to other students or researchers at the same level under your supervision. This includes:
  - **Publications:** Quality and quantity of published work.
  - **Contributions:** Any significant contributions to research projects, academic discussions, or collaborative work.

Thanks to our funding partners. Merci à nos bailleurs de fonds.

### 3. Outstanding Achievements:

- o Comment on any notable achievements by the candidate, such as:
  - **High-Impact Research Results:** Significant findings or advancements in the field.
  - **Awards and Honors:** Any prestigious awards or recognitions received.
  - **Special Contributions:** Any unique contributions to the field or institution that are particularly noteworthy.

### 4. Personal Qualities and Skills:

- o Optionally, include observations on the candidate's personal qualities and professional skills, such as:
  - **Work Ethic:** Diligence, commitment, and initiative.
  - **Teamwork:** Ability to work collaboratively with others.
  - **Leadership:** Demonstrated leadership or mentoring abilities.

### 5. Overall Recommendation:

- o Provide a clear statement of your overall recommendation, indicating whether you support the candidate's application and your confidence in their future potential.

# GRI 申請流程-Application-Documents

## Documents

Please upload the following documents:

- Resume/CV: Your resume/CV should provide information on your academic background and your academic, research and industrial experience. You can submit your own CV or [download the Mitacs template](#) (either is acceptable – using your own template will not negatively impact your application).
- Transcript: You are required to submit official transcripts that show your academic history since you started your undergraduate or combined undergraduate/master's program. If you attended more than one accredited university since you started your program, you will need to submit a transcript from each university. It is preferred that you combine all your transcripts into one PDF document. However, the application allows you to submit up to 4 different PDF files under the transcript section.
  - A transcript is a detailed record of your marks or grades that has been generated by your university, either on paper or online, with a list or table of the individual modules, papers or courses you have completed with a numerical and/or letter grade assigned to each. It may also give an overall grade for your qualification. As you have not yet completed your current degree, you need to submit a transcript from your institution with details of the grades you have received so far.
  - If your transcript is not in English or French, upload a translated and notarized version.

### 需上傳文件:

- CV- 可用Mitacs格式也可自行設計
- 學校官方的英文歷年成績單
- 英文檢定成績證明

## ● 關於學業成績標準CGPA3.3?

CGPA為Cumulative GPA，指自入學以來所有修課的加權平均成績，也可理解為每學期 GPA 的總平均。

部分學校開立的英文歷年成績單有直接標示CGPA；若未標示的話，也會列出每學期的GPA。我們將依據成績單上各學期的 GPA 計算平均，以判斷是否符合 CGPA 3.3 的標準。

### • GRI網頁中標示的學業成績標準: CGPA $\geq$ 3.3 (77%)

採多數台灣大專院校使用的GPA 4.3制度:

Score	100-90	89-85	84-80	79-77	76-73	72-70	69-67	66-63	62-60	59-0
Grade	A+	A	A-	B+	B	B-	C+	C	C-	F
Grade Points	4.3	4.0	3.7	3.3	3.0	2.7	2.3	2.0	1.7	0

**\*學業成績為基本資格審查依據，不影響獲選順序!**

# FAQs

## ● 可否申請和自己就讀領域不同的計畫嗎?

可以。有些專案可能需要專長不同的實習生。例如，生物科技的專案可能需要有資訊工程專長的實習生來協助完成。建議以關鍵字進行搜尋計畫，充分了解計畫中的實習生角色、具備技能、工作內容，以確保自身專長與計畫所需技能相符。

## ● 獲獎後，可赴加拿大執行實習時間是?

實習需在5~10月間選擇12週完成，時間上可與Supervisor協調。最早可於5月初開始，最晚須於7/31前開始。

## ● 獲獎後該如何做出國準備(例如簽證申請、住宿、保險....等)?

- 明年2月中後Mitacs將統一寄信通知給獲獎生，說明簽證等文件的準備，並確認實習時間。
- Mitacs不提供住處，僅提供住宿參考訊息。**獲獎者須自行尋找住宿地點。**
- Mitacs將分配給每位獲獎生一位mentor，來協助後續的實習準備。

# FAQs

## ● GRI的獲獎補助金額是多少呢? 如何申請呢?

獲獎GRI即獲得補助資格，無須另外申請。

實習補助最高價值CAD12,000元，由Mitacs 及國科會共同出資。

- CAD12,000非全數為學生實領金額，補助包括機票、當地交通、住宿、生活津貼、Mitacs代付的保險、培訓課程、活動辦理等行政相關費用。
- 每位GRI獲獎生實領金額約為CAD8,000~9000，依實習地點及時間略有不同，由Mitacs分三次發放補助。
- GRI獲獎生可另外申請「國科會額外補助實習獎學金NTD 30,000元」，於確認同學赴加實習後，另行發放至個人帳戶。

## ● GRI往年錄取情況如何呢?

2024 有7位學生獲選，2025 年則有30位獲選，錄取率約為28%~34.5%。

自2026 年起 GRI錄取名額由原本的30名提高至60名，錄取機率預計大幅提高!
